THE CANAL PAYMENT COMING

The Transfer of This Large Sum . May Clear Some of the Uncertainties of the Market,

(By Associated Press.)

NEW YORK, March 3.—To-day's stock market was as stagmant as a pond without inlet or outliet. It was only in stocks of a minor grade and which are usually obscure in the market that movements were distinguishable at all. There were a few advances of a point or more in this class. These advances gave the impression of firmness in the market, which this class. These are the market, which would have been otherwise without any tone. The fixture of the date on or before March 25 for paying over the government deposits to be used in the Panama Canal payment opens the way for clearing up one of the uncertainties hang-ing over the market. The \$10,000,000 paid over to the Panama republic simply goes from one set of bank-vaults and from the sub-treasury into another bank wault, so that local bank reserves are the gainers to the extent of the payment from the well-treasury.
